

# Your customisable, all-in-one online learning & coaching platform.

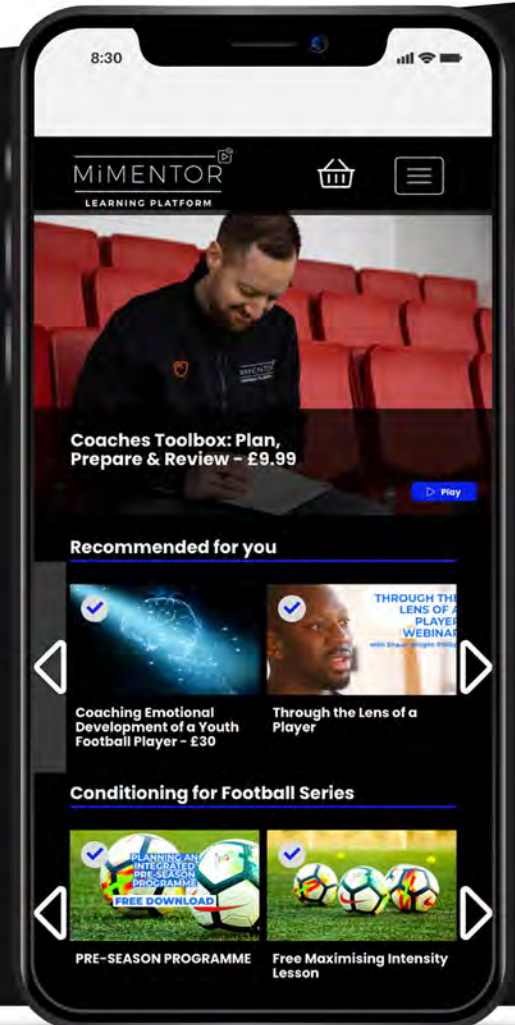

MiMentor provides a completely unique, white-labelled, online training platform experience. Join other world leading organisations who are working with us to develop their own digital education programmes.

- ✓ Customise the appearance of your own personal platform
- ✓ Nurture & train staff within your own organisation
- ✓ Create an online community with your members via webinars & discussion forums
- ✓ Create & host your own online learning courses
- ✓ Sell content externally & connect with new audiences
- ✓ Create a digital library of new & existing content that is easily searchable

“This platform gives a great opportunity for any organisation who need an interactive, intuitive platform to host their own content for their coaches, parents or players; so their entire network can access specialist knowledge and insights.”

Shaun Wright-Phillips

# WHAT WE OFFER:

- ✓ **Create your own personalised platform**  
Make the MiMentor learning platform your own without writing a line of code. Add your company logo, colours, background images, marketing tagline & more to provide a unique training experience.
- ✓ **Upload your e-learning content**  
Your training platform is compatible with a variety of popular media formats, including videos (hosted on our secure system), Youtube embeds, audio files, PDFs, Google Docs & Articulate web exports.
- ✓ **Build engaging digital courses**  
Add an introduction, structure course lessons & include digital downloads.

- ✓ **Create a media library**  
Collate your existing digital content into one searchable media library.
- ✓ **Monetise your site**  
Sell access to content on a per item or per subscription basis using our secure, integrated Stripe payment gateway. Include bundle discounts for bulk purchases & create promotional discount codes.
- ✓ **Manage your users**  
The admin portal allows company managers to create users, edit their details & define custom role-based permissions.

- ✓ **Analyse your platforms performance**  
Track key statistics on your site using the inbuilt analytics tool. Measure unique sessions, sign ups, sales, browser & location figures, course popularity, individual user data & more.
- ✓ **Host live webinars**  
Integrate the Vimeo webinar plugin to host live streams & upload past webinars onto your e-learning platform.
- ✓ **Create quiz & accreditation modules**  
Assess learners, request evidence of qualifications, submit documents & provide feedback to submissions.
- ✓ **Interact with learners on the forum**  
Manage your forums, moderate threads & reply to questions.
- ✓ **Multi-currency support**  
Allow users from around the world to pay in their native currency.
- ✓ **Manage your users**  
Our support packages allow partners to communicate with our team via phone, email & platform messaging to resolve technical issues.
