*"At the PGA, we are committed to supporting our members with ongoing professional development opportunities. To this end, we partnered with MiMentor to design a tailored mentoring program aimed at two key groups: training professionals and trainees. This blended mentoring program provides a seamless online experience, enabling our members to easily navigate the MiMentor platform, engage in live webinars, and submit their learning for certification. The feedback has been overwhelmingly positive, and we look forward to supporting additional cohorts as they gain these essential mentoring skills."*
